

Soil Health and Nutrient Management for Spring Production

Thursday, March 21, 2024 · 9 am–1:30 pm · **FREE**
VSU Randolph Farm Pavilion, 4415 River Rd, Petersburg, VA

VSU Nutrient Management Specialist Tammy Holler will discuss practices to help you increase your chances for success with spring crop production, including:

- Nutrient management in spring crop production
- The importance of soil sampling and understanding the results. If time permits, there will be a demonstration of the proper method of taking and preparing a soil sample for shipment.
- Water management (irrigation) and using tensiometers to avoid under- or over-watering
- Benefits of cover crops to soil erosion and fertility, as well as programs available to improve soil and water quality.
